*1 Use of the rear terminal will be limited depending on the wall mounting style. Refer to the Installation instructions (Wall-Mount Bracket) for the TV.

*2 Use of the terminals may be limited depending on usage of the TV.

About the Strength of Walls

The wall where the display is attached must have a strength that can withstand 4 times (6 times in some models) the mass of the display. For more details about the required strength of the wall, please refer to the **Installation Information (Wall-Mount Bracket)** on your TV model page.

If the wall strength is insufficient, reinforce it sufficiently. As for the reinforcement of the wall, consult a Sony dealer or a licensed contractor.

About Screws

When attaching the **Wall-Mount Bracket** to the TV, use screws supplied with the **Wall-Mount Bracket**. The supplied screws are set with a length of 8 mm to 12 mm from the attachment surface of the **Wall-Mount Bracket** (thread diameter and screw length are different depending on the Wall-Mount Bracket).

If you use substitute items other than the supplied screws, the TV may fall and cause bodily injury to someone or damage to the internal parts of the TV.

For details about the screws, refer to the **Installation instructions (Wall-Mount Bracket)** for the TV or **Operating Instructions** or **Reference Guide** for the TV.
